PLEASE RETURN TO THE LIBRARY SERVICE DESK

MAC OS

MSU Library Printing Instructions for MAC OS

- **1**. Connect to "MSU-Secure" Wi-Fi with your NetID and password.
- 2. Click on the "Go" menu in the top menu then click on "Connect to Server..." at the bottom of the list.

*Note: Make sure that you are not in any applications when you click "Go." Your menu bar should have "Finder" next to the Apple logo.

3. In the field, type smb://cicada.msu.montana.edu/Pharos_Package_Installers and click connect.

Favorite Servers	5:			

4. Enter msu\NetID username and your NetID password in the next screen when prompted.

5. The "Pharos_Package_Intallers" folder will open automatically. Select MSU_Student_labs_printing_Mac.dmg file to install the printers.

6. In the "Popup" window, select the icon labeled Popup.pkg.

7. Continue through the "Install Pharos Popup Client" window to authorize the printer installation. It may take a few minutes.
